Mr.

Landowner No:

Wednesday 4th January 2012

Re: Laois Kilkenny Reinforcement Project

Dear Mr.

I refer to my letter to you dated 11th August 2011 and subsequent discussion with _____ in relation to our proposals in respect of the above project and how it affects your lands.

We note that during the above discussion you refused to grant EirGrid access to your lands to conduct walkover environmental surveys along the route of the proposed indicative overhead line. It is still our expressed preference that these surveys take place with your permission and that we could discuss how it may be possible for us to minimise the impact on your farming practices with respect to line routing and sensitive positioning of structures.

Towards this end I again ask for your permission to access your lands to facilitate the above surveys and to discuss our proposals with you.

Regrettably if you are not in a position to facilitate this, we may have to proceed with developing the preferred line route based on the information gathered to date.

Should you now wish to facilitate these surveys or meet with a representative of EirGrid please contact Simon Blackmore on (01) 7038357. I should reiterate that in discussing this with us, you will in no way prejudice your right to make your views known in the course of the planning approval process.

I look forward to hearing from you.

Yours sincerely,

Simon Blackmore
